# TRANSNATIONAL FINAL DISSEMINATION REPORT

**Project Applicant: Esmovia (ES)  
with the technical support of Pixel (IT)**

**Period: 1 November 2016 – 31 October 2018**

**Report produced by: Pixel (IT)**

Co-funded by the  
Erasmus+ Programme  
of the European Union

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## THE DISSEMINATION STRATEGY

The project partnership has adopted the process for the dissemination procedure with the aim of making the WBL 2.0 project results accessible to the highest number of potential beneficiaries as possible.

The process carried out involved various phases:

### 1.) Identification of the dissemination objectives.

The main identified dissemination objectives are:

- Inform the potential users about the project results
- Make the project results available, accessible and usable to the potential users who are not directly involved in the project
- Improve the visibility and impact of the project

### 2) Identification of the contents for dissemination.

The identified contents of the project to be disseminated are:

- The WBL 2.0 project portal and all the educational sources it contains
- Methodological and management strategies for the achievement of the project objectives
- Results achieved at both transnational and local level which highlight the level of convergence between the results reached and the objectives originally foreseen. Unforeseen results that are considered points of strength will also be emphasized.

### 3) Identification of dissemination actions

In addition to the contractual obligations, each project partner had to carry out at least 1 dissemination action during each month of the project. These actions were registered by the partner on the specific form which was published on project website. Please see: <https://wbl.pixel-online.org/dissemination.php>.

Therefore all partners are able to access the information about the dissemination events organized by the others and draw ideas from them. The project's partners can therefore learn from each other dissemination practices.

#### 4) Identification of the target groups of the dissemination activities.

These groups were identified and can be sub-divided into the following categories:

- The personnel of the institutions that are partners in the project (but not directly involved in the project itself) who could benefit from the outcome of the project.
- VET Teachers
- Companies
- VET Schools
- Headmasters
- Students
- Parents
- Policy makers in the educational sector

#### 5) Production of relevant tools for the dissemination

In order to ensure a homogeneous and consistent communication of the project, Esmovia (Project Applicant) and Pixel (IT), in cooperation with some selected partners created:

- A visual identity for the project, i.e. a project logo published on each page of the Internet project website, Portal, each article (both on paper and on-line), as well as on each document produced (brochures; posters; press communication etc.).
- Communication material for speeches and presentations on the project, to be used by all partners during conferences; meetings; events in the relevant field. These include: power point project presentations; project brochures translated in all partners' languages, etc.
- Creation of a Dissemination form which was completed by each partner in the project. The Dissemination form is available for download from the project website (see Download section). Each partner completed several Dissemination forms describing in detail the dissemination activities completed (e.g. Participation in a conference in which the project was presented; sending of brochures; articles; organization of events etc.).
- Creation of a Dissemination section on the project's web site. This section, accessible to all, contains a grid collecting all dissemination activities carried out by both the project's promoter and partners. Please see "Dissemination" section on the project web site at:

<https://wbl.pixel-online.org/dissemination.php>

## 6) Identification of the actions to be put into act for the dissemination.

The identified actions for dissemination were:

- Continual updates on the WBL 2.0 website with information on the development of the activities and the results in progress.
- Creation and distribution of brochures and posters containing information on the project activities and the results achieved.
- Contacts with the press, the radio and the television with the aim of informing them of the projects, the activities, and on the results achieved
- Participation of the applicant or the project partners in conferences, meetings and trade fairs in the health care and medical sectors. Or participation in a sector specifically related to the project, so as to present it in a fair booth, conference event, or to distribute project brochures.
- Organization of formal and informal meetings with potential beneficiaries of the projects results. This may include: participation in other projects meetings where this project can be presented; organization of ad hoc meetings to present the project to a group of potential beneficiaries; organization of one to one meetings with public authorities and politicians involved in the field of agri-business, etc.

Information on the specific dissemination activities carried out by each partner can be found under the specific link on the project web site at

<https://wbl.pixel-online.org/dissemination.php>

## 7) Evaluation

For each dissemination activity, an evaluation of the number of subjects reached in the target group framework was done. This can be found on the dissemination form completed by each partner regarding each dissemination event carried out. The finished forms are available on the project web site at <https://wbl.pixel-online.org/dissemination.php>

## MANAGEMENT OF THE DISSEMINATION ACTIVITY

All the WBL 2.0 project partners were required to complete at least an average of 1 dissemination activity every month. Then they had to collect and present the information about them.

For this purpose, Pixel has created an on-line Dissemination Form to assemble and describe in details the dissemination activities.

### Dissemination

Choose Country ▼

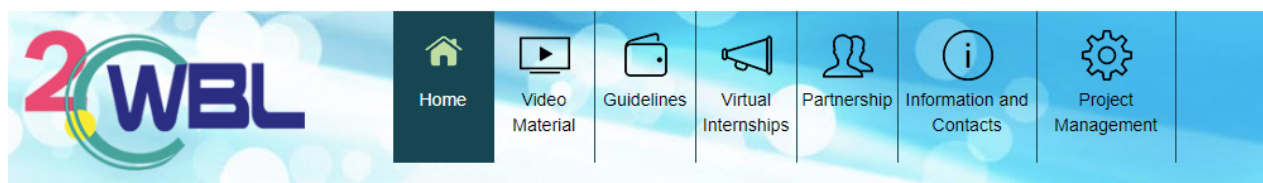

Outcomes, Results and Evaluation *(follow-up actions to be taken etc.)*

The Dissemination Form provides the following information about each dissemination event carried out by each partner: date and place of the event, type of the event (e.g. mailing, conference, meeting, informal contact etc), a description of the event, the target group of the event, number of participants in the event, the results of the specific dissemination activity carried out (e.g. further requests of material, request of project portal password, joining of the project etc.)

All partners completed a form for each dissemination event that takes place.

The project partners then upload on the project web site all the completed dissemination forms together with the activity reports on a tri-monthly basis. They can be found in the 'Dissemination' section of the WBL 2.0 portal (<https://WBL 2.0.pixel-online.org/dissemination.php>).

In this way, the project partners can see the dissemination activities concluded by all project partners and can be inspired to carry out their own events.

From the information derived from the dissemination forms available online, each partner produces the best practice dissemination report.

The best practice dissemination report details the best dissemination event carried out by each partner and that can be considered as examples of best practice. For each event the following elements are reported: the place and date where and when they took place, the target groups and the number of participants involved in the event, the outcomes of the events, the feedback received by the participants, the follow up of the event, the reasons why the events can be considered examples of best practice.

## CONTENTS OF THE DISSEMINATION ACTIVITY

Every project partner carried out a number of dissemination activities in order to make the project in-progress available for a wider audience.

The specific contents which were disseminated, by the project partnership, at European level are:

- Information about the project objectives, activities and in progress and expected results.
- Information about the Erasmus+ Program and about the opportunities provided at European level for educational purposes.
- The WBL 2.0 Project portal and all the educational sources it contains
- Innovative aspects of the project.
- Relevance of the project at European level and the added value the European partnership provides for the project.
- Methodological and management strategies for the achievement of the project objectives
- Results achieved at both transnational and local level which highlight the level of convergence between the results reached and the objectives originally expected. Unanticipated results that are considered points of strength will also be emphasized.

## TARGET GROUP COVERAGE

The target groups for the dissemination activities were:

- **Enterprises** (26 events organized in Italy, 7 events organized in Latvia, 15 events organized in Spain, 8 events organized in Slovakia, 1 events organized in Romania, 1 events organized in Portugal, 1 events organized in Poland, 1 events organized in Ireland, 1 events organized in Greece)
- **Association** (18 events organized in Italy, 2 events organized in Spain, 8 events organized in Lithuania, 3 events organized in Greece, 3 events organized in United Kingdom, 2 events organized in Portugal, 2 events organized in Poland, 2 events organized in Romania, 1 events organized in Germany, 3 events organized in France, 1 events organized in Belgium, 1 events organized in Latvia, 1 events organized in Hungary, 1 events organized in Belgium)
- **Experts** (13 events organized in Italy, 11 events organized in Latvia, 12 events organized in Spain, 3 events organized in Slovakia, 1 events organized in Ireland, 1 events organized in Greece)
- **General Public** (18 events organized in Italy, 4 events organized in Latvia, 16 events organized in Spain, 8 events organized in Slovakia)
- **Public Bodies** (26 events organized in Italy, 7 events organized in Latvia, 15 events organized in Spain, 8 events organized in Slovakia, 1 events organized in Romania, 1 events organized in Portugal, 1 events organized in Poland, 1 events organized in Ireland, 1 events organized in Greece)
- **Universities** (32 events organized in Italy, 8 events organized in Spain, 17 events organized in Lithuania, 7 events organized in Greece, 10 events organized in United Kingdom, 5 events organized in Portugal, 3 events organized in Poland, 1 events organized in Romania, 4 events organized in Germany, 2 events organized in France, 2 events organized in Bulgaria, 3 events organized in Belgium, 2 events organized in Sweden, 2 events organized in Netherlands, 2 events organized in Latvia, 1 events organized in Ireland, 2 events organized in Hungary, 2 events organized in Croatia, 1 events organized in Austria, 2 events organized in Croatia, 3 events organized in Belgium, )
- **Researchers** (12 events organized in Italy, 17 events organized in Latvia, 5 events organized in Spain, 1 events organized in Greece)
- **Schools** (40 events organized in Italy, 6 events organized in Latvia, 16 events organized in Spain, 5 events organized in Slovakia, 5 events organized in Romania, 3 events organized in Portugal, 2 events

organized in Poland, 3 events organized in Germany, 2 events organized in Bulgaria, 2 events organized in United Kingdom, 1 events organized in Ireland, 1 events organized in Hungary, 1 events organized in Sweden, 1 events organized in Netherlands, 1 events organized in Belgium)

- **Students** (23 events organized in Italy, 19 events organized in Latvia, 4 events organized in Spain, 1 events organized in Greece)
- **Teachers** (29 events organized in Italy, 16 events organized in Latvia, 11 events organized in Spain, 4 events organized in Slovakia, 2 events organized in Romania, 1 events organized in Portugal, 1 events organized in Germany, 2 events organized in United Kingdom)
- **Training Agencies** (33 events organized in Italy, 7 events organized in Latvia, 14 events organized in Spain, 4 events organized in Romania, 4 events organized in Portugal, 4 events organized in Poland, 3 events organized in Germany, 2 events organized in Bulgaria, 2 events organized in United Kingdom, 1 events organized in Ireland, 1 events organized in Hungary, 2 events organized in Greece, 1 events organized in Sweden, 1 events organized in Slovenia, 1 events organized in France, 1 events organized in Cyprus, 1 events organized in Croatia, 1 events organized in Belgium)

## GEOGRAPHICAL COVERAGE

The project partnership organised 263 dissemination events.

A total number of 105 dissemination events were organized in **Italy**. They were: Article on website, Conference or Fair, National Meeting, Newsletters, Training Seminar, Transnational Meetings.

A total number of 54 dissemination events were organized in **Latvia**. They were: Article in newspaper, Article on website, Conference or Fair, Informative Mailing, National Meeting, Training Seminar, Transnational Meetings.

A total number of 41 dissemination events were organized in **Spain**. They were: Article in magazine, Article in newspaper, Article on website, Conference or Fair, National Meeting, Training Seminar, Transnational Meetings.

A total number of 24 dissemination events were organized in **Slovakia**. They were: Article in newspaper, Article on website, Informative Mailing, National Meeting, Training Seminar.

A total number of 6 dissemination events were organized in **Romania**. They were: Transnational Meetings.

A total number of 5 dissemination events were organized in **Portugal**. They were: Transnational Meetings.

A total number of 5 dissemination events were organized in **Poland**. They were: Transnational Meetings.

A total number of 4 dissemination events were organized in **Germany**. They were: Training Seminar, Transnational Meetings.

A total number of 3 dissemination events were organized in **Bulgaria**. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in **United Kingdom**. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in **Ireland**. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in **Hungary**. They were: Transnational Meetings.

A total number of 2 dissemination events were organized in **Greece**. They were: Transnational Meetings.

## TIMING

The dissemination activity started from the first month of the project and continued throughout the project period.

## DISSEMINATION ACTIVITIES CARRIED OUT

The following is a list of dissemination activities and tools used by the project partners:

### ■ *Article in magazine in which the project was presented*

Partner involved	Description	Date	Audience	Country
Conf. Imprese Bergamo	An article has been published in Conf.'s specific magazine for SMEs in the Province of Bergamo which calls: Bergamo Artigiana. This magazine is regularly read by 14000 entrepreneurs and artisans. The article is about WBL 2.0: it illustrates the aims of this European project and partners and companies that have been involved. Then it's also explained how students and companies may get benefits from their collaboration.	02/07/2017	Enterprises	Italy

### ■ *Article in newspaper in which the project was presented*

Partner involved	Description	Date	Audience	Country
Epimorfotiki Kilkis	An article posted on Proini newspaper, including the Kick-off meeting of the project, but also a detailed description of it and its activities.	11/03/2017	General Public	Greece
Epimorfotiki Kilkis	An article posted on Eidisis newspaper, including the Kick-off meeting of the project, but also a detailed description of it and its activities.	15/03/2017	General Public	Greece

Conf. Imprese Bergamo	It has been written an article on the local newspaper: "Eco di Bergamo", which is the most popular newspaper in the city of Bergamo. The newspaper is aimed at all categories of citizens and every age. The article tells about our activities on the WBL 2.0 and explains how Conf. is involved with its internationalization office in this european project.	11/05/2017	General Public	Italy
Conf. Imprese Bergamo	It has been written an article on the most important newspaper in Bergamo that is "Eco di Bergamo". The newspaper usually aims to all categories of citizens and every age. The article tells about our activities related to the WBL 2.0 and it explains how the internazionalization office in Conf. Imprese Bergamo is conducting its works.	14/09/2017	General Public	Italy
Epimorfotiki Kilis	A press release posted on Eidisis newspaper, including a detailed description of the project and its outcomes. The project's results described in detail.	09/11/2018	General Public	Greece
